

Calmplex 2000®

Item# 21347

60 Tablets

Recommended Audience:

Men and women with a stressful lifestyle: parenting, work, physical or emotional stress, dieting, lack of sleep, etc.

Calmplex 2000 is a homeopathic medicine formulated for the reduction of everyday stress, simple nervous tension, and occasional sleeplessness. Ideal for daily use, Calmplex 2000 creates a relaxing sensation without side effects or the risk of dependence. Calmplex 2000's quick dissolving tablets are an advanced delivery system designed to allow the active ingredients to go straight to your system bypassing the digestive tract to gently help correct symptoms.

Recommended Usage:

Chew tablet slightly and allow to dissolve in the mouth or under the tongue. Adults and children 12 years of age and older: Take one tablet up to three times daily as required for the relief of everyday stress and simple nervous tension. For occasional sleeplessness: Adults and children 12 years of age and older: Take two tablets one hour before retiring.

Ingredients:

Avena sativa 3x, Chamomilla 3x, Humulus lupulus 3x, Passiflora incarnata 3x, Valeriana officinalis 3x, Coffea cruda 6x, Ignatia amara 8x in a base combination of USP lactose/dextrose.

Focus Food Plus™

Item# 22746

60 Capsules

While Supplies Last!

Recommended Audience:

Men and women aged 50+ or those who have a family background of age-related memory and cognitive decline. Men, women, students, or working professionals whose lifestyle or work demands high levels of mental focus etc.

Do you find that your memory is not as sharp as it once was? Healthy individuals rely on their capacity to perform everyday tasks related to memory and cognition. Recalling names, numbers, important words or phrases and being able to concentrate on the task at hand is called "short-term memory." Focus Food Plus features Ginkgo biloba, which promotes blood and oxygen flow to the brain. Benefits of enhanced circulation in the brain include improved memory, increased reaction time and improved mental clarity.

Recommended Usage:

Take one capsule daily with a meal.

Ingredients:

Proprietary blend (spirulina algae, Ginkgo biloba extract, Bacopa, Asian ginseng (root) extract, choline bitartrate, cayenne pepper), Proprietary blend (protease 4.5, amylase, cellulase, lipase), Rice bran, vegetable cellulose and water.

Melatonin

NPN 80002276

Item# 24785

60 Tablets

Recommended Audience:

Men and women who have difficulty falling asleep or staying asleep or experience jet lag or altered sleep schedule such as shift-work.

Sometimes, for one reason or another, the body does not produce adequate amounts of melatonin for its needs. The body's ability to synthesize melatonin may decrease with age as children manufacture more melatonin than the elderly do. But melatonin production begins to drop at puberty. Melatonin, from Unicity, is the easy way to complement the body's production of this important hormone. Each tablet contains 2.5 milligrams of melatonin to help regulate your sleep cycle. Melatonin is not addictive and does not have a sedative effect upon waking.

Melatonin helps increase quality and amount of sleep for people suffering from sleep restriction or altered sleep schedule (eg. shift-work and jet lag) It also helps to relieve the daytime fatigue associated with jet lag. Melatonin also helps to reduce the time it takes to fall asleep in people with delayed sleep phase syndrome. Overtime it helps re-set the body's sleep-wake cycle. Melatonin is non-habit forming when taken as directed.

Recommended Usage:

Dissolve one to 4 tablets once a day at or before bedtime. For jet-lag - daily starting 3 days before the flight and continuing for 3-5 days after arrival.

Medicinal Ingredients:

Melatonin 2.5 mg, sorbitol, peppermint oil and peppermint powder (Mentha piperita) leaf.

Non-Medicinal Ingredients:

Magnesium stearate.

PhytoPath™
Item# 20436
90 Capsules

Recommended Audience:
Men and women who want anti-oxidant protection against oxidative damage stemming from environmental factors, aging, stress, and illness or those who do not eat enough fruit and vegetables.

Oxidative damage is the natural byproduct of many processes within and among cells, and it is also created by exposure to various environmental factors -- such as air pollution, pesticides, food additives, and radiation -- and the effects of aging, stress, and illness. Research shows that antioxidants help fight the aging effect of oxidative damage, so replenishing your body with antioxidants is vital. PhytoPath contains substantial amounts of some of the best antioxidant substances available, and is especially important for people who don't eat enough fruit and vegetables. Contains grape seed and maritime bark extracts to support the skin, eyes, and metabolic systems; beta carotene helps protect cells; vitamin E supports healthy organs; and vitamin C strengthens connective tissue. Additional ingredients include green tea, quercetin, citrus bioflavonoids, and extracts of pomegranate, apricot, nectarine, and prune skin.

Recommended Usage:
Take three capsules daily at meal time with water. Do not exceed recommended dosage.

Medicinal Ingredients (Per capsule):
Beta Carotene*, Vitamin C (Ascorbic Acid, Calcium Ascorbate) and Vitamin E (d-Alpha Tocopheryl Acetate) 67 IU
*Source of Vitamin A

Non-Medicinal Ingredients (Per capsule):
Green tea extract, N-acetyl L-cysteine, turmeric extract, grape seed extract, alpha lipoic acid, quercetin, rutin, pine bark extract, apricot and nectarine fruit extracts, pomegranate fruit extract, prune skin extract, citrus bioflavonoid complex, red wine extract, magnesium stearate, microcrystalline cellulose and silicon dioxide in a gelatin capsule.

Vision Essentials™
NPN 80026167
Item# 24758
60 Capsules

Recommended Audience:
Men and women who want to support and/or maintain their eye health.

This latest vision-health formulation based on emerging science, incorporates a powerful blend of vitamins and antioxidants proven to support and maintain eye health. The special blend of antioxidants in Vision Essentials may help slow down the advance of AMD (age-related macular degeneration). Formula is based on the NIH's Age-Related Eye Disease Study I and II (AREDS) formulation which found that a combination of antioxidants were able to slow the advance of AMD.

Recommended Usage:
Take two capsules per day.

Ingredients:
Vitamin C (Ascorbic Acid), Vitamin E (Vitamin E Acetate), Vitamin A (Beta Carotene), Zinc (Zinc Gluconate), Lutein, Zeaxanthin, Proprietary berry blend (fruit powders: Wild Blueberry, Strawberry & Cranberry), Wild bilberry fruit extract, Elderberry extract, Raspberry seed powder, Hydroxypropylmethyl Cellulose and Microcrystalline Cellulose.
