

Bios Life® Matcha

Item# 25135

30 Packets

Pomegranate & berry flavour

Recommended Audience:

Individuals who want to boost their energy levels.

Bios Life Matcha contributes to the maintenance of the normal function of the nervous system and metabolism, and helps put the bounce back in your step. The ingredients in Matcha contribute to normal energy-yielding metabolism. The blueberries and Chi-Oka Matcha provide antioxidants, catechins, and chlorophyll, which support overall cleansing and health. It is a great-tasting, refreshing drink that adds vitality to your life. Bios Life Matcha contains high levels of Unicity's exclusive Chi-Oka Matcha. Matcha has been shown to improve attention and reduce stress. Our carefully selected and produced, natural, ceremonial-grade Japanese Chi-Oka Matcha is eaten not steeped. This means you are consuming the meat of the leaf, so you obtain all of the soluble and insoluble nutrients from the Matcha plant.

Recommended Usage:

Mix the contents of one packet with 8-10 oz. of water. More than the recommended use should not be taken.

Ingredients:

Bios Mental Focus™ (Proprietary chi-oka matcha, citicoline), Bios Metabolic Boost™ (proprietary chi-oka matcha, guarana extract, b-vitamin complex), proprietary chi-oka matcha, inulin, maltodextrin, natural & artificial flavours, sugar, citric acid, l-carnitine, fructose, guarana, potassium citrate, sodium chloride, pomegranate, ascorbic acid, resveratrol, sucralose, pyridoxal 5'-phosphate, thamin HCl, riboflavin 5' phosphate, methylcobalamin.

Bios Life® Matcha Focus

Item# 25137

30 Packets

Green apple flavour

Recommended Audience:

Individuals who want to have more mental clarity or relieve stress.

Bios Life Matcha Focus can help increase alertness, relieve stress, attain a zen-like state of mind, and improve concentration. The ingredients in Matcha Focus contribute to normal energy-yielding metabolism. The blueberries and Chi-Oka Matcha provide antioxidants, catechins, and chlorophyll, which support overall cleansing and health. It tastes great and adds tranquility and harmony to your life. Bios Life Matcha Focus contains high levels of Unicity's exclusive Chi-Oka Matcha. Matcha has been shown to improve attention and reduce stress. Our carefully selected and produced, natural, ceremonial-grade Japanese Chi-Oka Matcha is eaten not steeped. This means you are consuming the meat of the leaf, so you obtain all of the soluble and insoluble nutrients from the Matcha plant.
